

COLOURS YOU CAN'T WAIT TO COME HOME TO

WE PRESENT A WARM and BEAUTIFUL
PALETTE from INSPIRATIONAL BLOGGERS

THE STORY of ANNA KUBEL

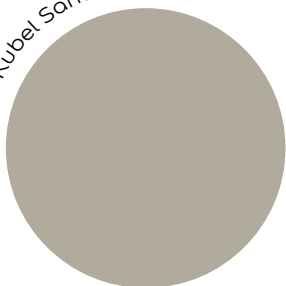

'For me, colours are crucial in making a home welcoming and cosy'

We proudly present Anna Kubel — a strong storyteller, creative stylist and an amazing source of inspiration. Exclusively for Nordsjö, the Kubel Colour Collection is a palette of eight beautiful and irresistible colours created by Anna.

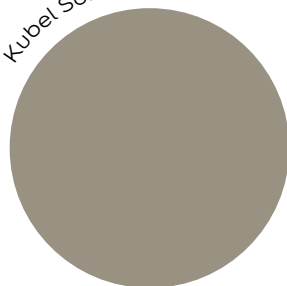

'I see colours everywhere — in a house facade, a branch, a little stone that one of my children has picked from a gravel path or in a flower. I usually say that I collect beautiful colours. Together with Nordsjö, I have developed my eight favourite colours that I have painted my home with.

For me, colours are crucial in making a home welcoming and cosy. I love arriving home to a feeling of calmness and I want the colours I use to reflect that mood. Muted, earthy and warm tones that together creates a harmony between the different rooms.' - Anna Kubel

Kubel Soft Oak

The perfect mix of brown and beige.

Kubel Poppy Seeds

A brown-beige colour with a hint of red.

Kubel Sandy Grey

An absolutely perfect base. Not too warm and not too cool, but a soft and pleasant grey/beige colour that fits most interiors.

A rich green colour in a cooler tone – with the evening light of June the colour almost appears blue.

Spring Leaf

This is the perfect green colour if you ask me. It has a warm, soft tone without being cute.

‘When I paint my home, I like to create a common thread throughout the house. For example, in almost all our rooms there is something green. The built-in shelf in the kitchen, the stairs to the top floor, the children’s wardrobe and the large display cabinet all have the same green colour without it feeling repetitive. As the light falls differently in each room, the colours are also perceived in unique ways. When it comes to home decor, my three favourite colours are green, beige and pink. They have been the base in creating the palette in my home and my 8 unique colours.’

Kubel Honey

Kubel Honey

A warm tone of light honey.

Kubel Powder

A light and powdery tone of pink that creates a warm and welcoming feeling.
